## VISION

To develop Christ centered leadership in healthcare, transforming communities through compassion, innovation and excellence.

## MISSION

CIHSR strives to be a vibrant community of healthcare workers in the spirit of Jesus Christ by:

- Providing quality, ethical, accessible and affordable healthcare with a focus on the poor and vulnerable sections of society.
- Training and capacity building of compassionate healthcare professionals to be servant leaders.
- Engaging in contextual research to improve health outcomes
- Partnering with communities and likeminded organizations to impact health.

## DIRECTOR'S NOTE

CIHSR has come 16 years since 2007. The institute has evolved to become a medium sized hospital with multispecialty services, growing academic courses, a vibrant outreach programme and evolving work in research. Our activities have expanded within the community.

The three partners in the Governance of our institute have played their roles by way of training and mentoring from CMC Vellore, Good Governance guidance and sponsorships from EHA and partnerships in various National health programmes with the State Government. We have expanded our partnership with Bangalore Baptist hospital who have supported us keenly in Guidance, Finance, Trainings and software development. We are grateful to all of them for their continued support and trust in us.

God has blessed us immeasurably with good people and resources. We now enter into a phase of exponential growth which will require a higher grade of professionalism, quality and leadership. Our people are our resources and if we invest in them, the institute will grow.

Our processes and systems will require streamlining, refining and aligning with the best practices across the world. Team building will require intensive effort. We need to strengthen our Governance processes and create resilience within the system while being agile.

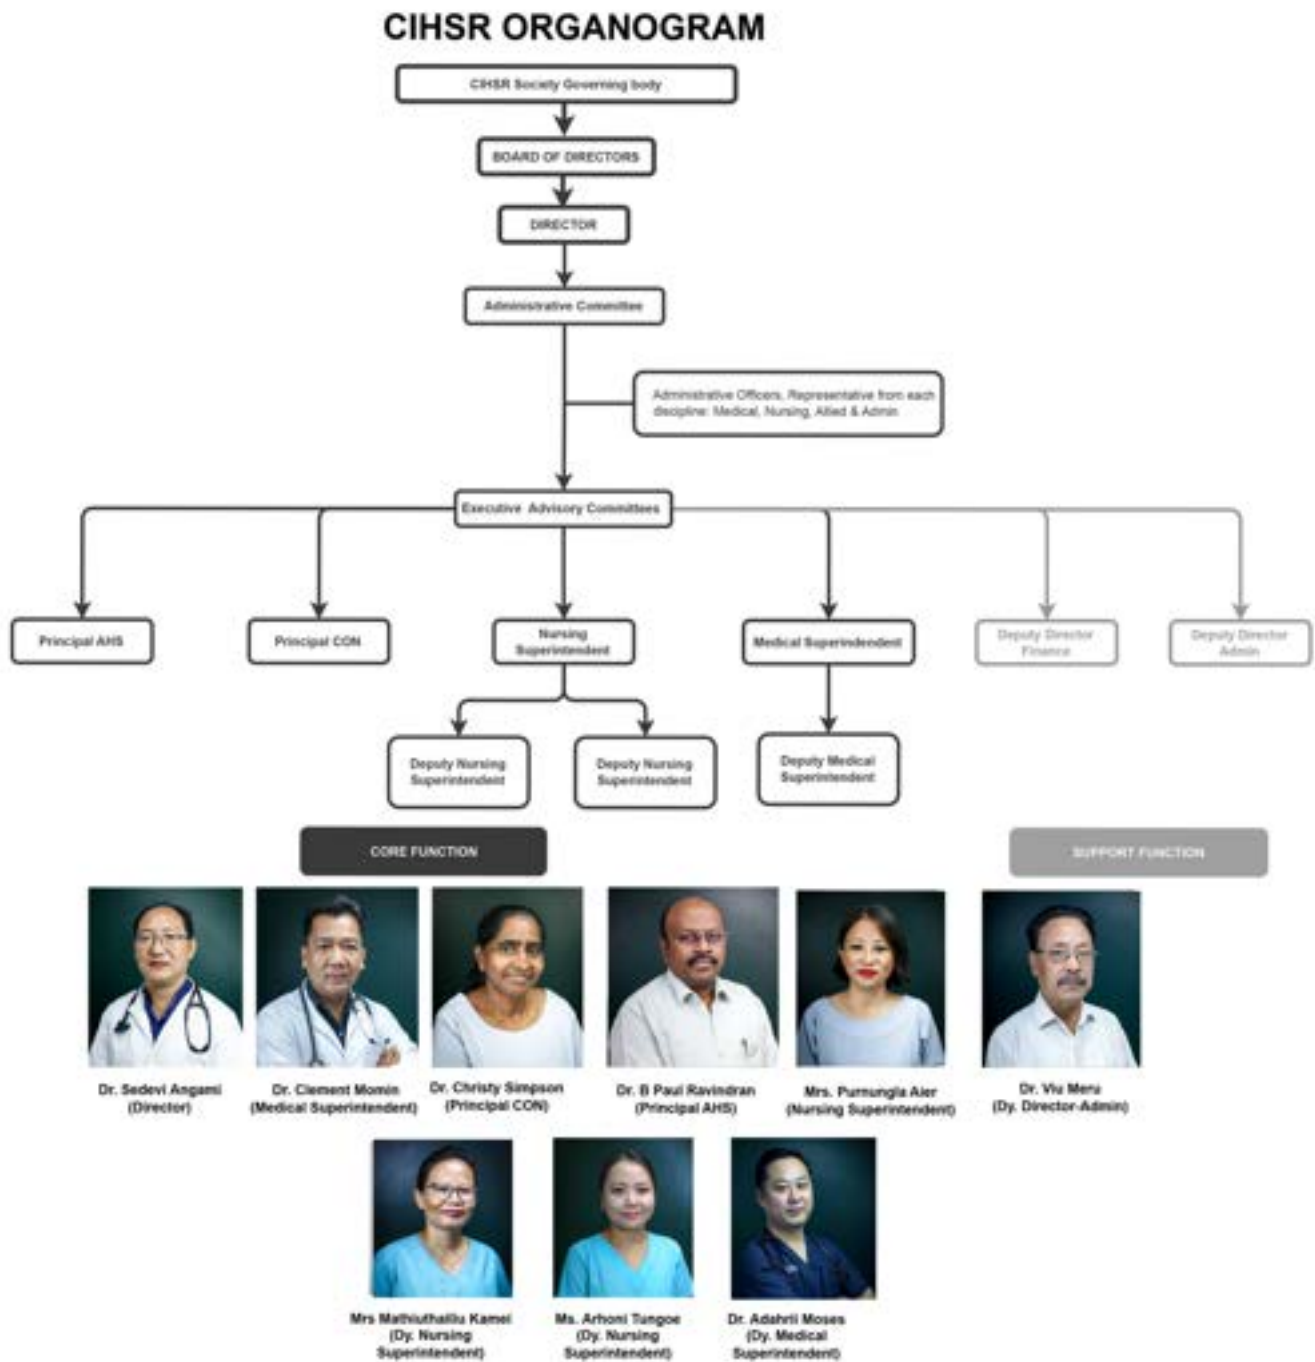

We must focus on our vision and mission for which we live in this place.

May the Lord who brought us this far, work through our lives and enable us to fulfil his purposes in our lives and institution to become a true place of healing and care to a hurting world.

**Dr Sedevi Angami**  
Director, CIHSR

# STATISTICS 2022-2023

OPD-1,23,907	IPD-9422	Daily Average-441
Operations(Minor) 4092	Operations(Major) 2365	Modular OT 5 Units
Haemodialysis 8374	UGI Endoscopy 2551	Colonoscopy 454
ECG 7004	CT Scan 5652	X-Ray 20,646
Gastroscopy 2577	ECHO 3435	Nasal Endoscopy 649
Speech & Language Therapy - 995	Audiometry 1194	Cardiac Procedures 405
Ayushman 8464	ARSH 2394	JSSK 675
Physiotherapy 4342	Laboratory Tests 2,46,832	Emergency-14,5577

## Statewise New Patient Registration

Assam 10,757	Nagaland 40,080	Other States 175
-----------------	--------------------	---------------------

New facilities like the Blood Centre, Occupational Therapy, Neuro Electrophysiology, Prosthetics and Orthotics added much needed impetus towards patient care and services.

## Medicine Department

Medicine department provides services in

- OPD
- IP
- ICU
- Haemodialysis
- patient education through nurse educators and
- Master health check-up facility
- Teleconsultation services
- Diabetic clinic

The department runs DNB Medicine course and has 6 trainees.

The department conducts journal club every Wednesdays and case presentations every Thursdays and few CMEs. Dr Imnanaro is involved in teaching the M Med students and Ayush doctors.

Intensive Care Unit (ICU) is seeing a major improvement with standard protocol being developed ICU and mentoring by Dr Manju (critical care medicine ) and nursing staff headed by Ms Theyiesinuo (Msc Nursing).

Emergency UGI endoscopies for critical patients can be done in our ICU without having to be shifted to diagnostic block.

**Our department has set up Neurolab which is able to do Nerve Conduction Study(NCV),Electromyography (EMG),Evoke potential etc.**

Our diagnostic Bronchoscopy is gradually being revived and our old dysfunctional PFT machine got replaced with a new one. We are able to do chronic tunnelled haemodialysis catheter(Permcath) insertion as day care bedside procedure thereby reducing the cost significantly for Chronic Kidney Disease patients.

Our Diabetic clinic will be restructured and we plan to develop it into a comprehensive diabetes care centre for North East.

## Surgery Department

RC (ASI Program-2023)

Live workshop and CME

Outpatient  
10,519

Inpatient  
1444

Major Surgeries  
656

Minor Surgeries  
101

Minor Operations  
2561

### Departmental activities organised by Surgery dept

- CME on management of Rectal cancer with Dr. Caleb.
- AMASI cum NECASI Live Workshop & CME
- Thyroid cancer CME with Dr. Caleb
- Urology Camp with Dr. Lionel.
- CME overview of Neonatal intestinal obstruction. (Paediatric- Surgery)
- Paediatric Surgery with Dr. Jacob Chacko
- Paediatric Surgery Camp. With Dr. Jacob Chacko

### Personal development programs and outreach programs Surgery Deptt.

- Holistic care of patients for the surgery dept. staffs. conducted by Chaplain Atsung and Counsellor. Ms. Atemla on 3 occasions.
- Surgery dept. staffs along with Dr. Tsurang (emergency dept.) and Dental dept. conducted two screening camps for geriatric patients on 15th August'23 and 2nd Oct'23 in collaboration with DABA.
- Surgery Dept. donated fund for the children's library through staff welfare.

## Rare neck condition restored

Little five-year-old Bartika Basumatry, from Golaghat and seven-year-old Engty, from Karbi Anglong were born with congenital torticollis, or wry neck, where the neck is twisted. Bartika had a very rare condition, which we named bilateral asymmetrical congenital torticollis, not reported anywhere else.

The staff at CIHSR took excellent care of both children during their entire stay. Thankfully, the meticulously planned, nuanced aesthetic surgeries by the team of surgeons, anaesthetists, nurses and, OR staff, were successful.

Both families are delighted to see the children normal again. The children are back at school. They love the smile caps presented to them, and happily posed for our light hearted clip,

A happy ending to a complicated problem. We call this program, "Kids Aesthetic Smiles" to help children with surgery for various plastic surgery and craniofacial deformities. Changing a child's life aesthetically, is meaningful. Little children have a life ahead. We are grateful for this privilege to help them face the future with happiness and confidence.

- Dr. Bona Shitiri

Representative Image

## Cardiology Department

The Cardiology Department is the latest addition to the super specialty services at CIHSR.

The Cardiac Care Unit with the Cath lab is equipped with advanced diagnostic and interventional machines that are not just the first in the state of Nagaland, but the unit is one of the best equipped in the region. The department aims to deliver optimal medical treatment and timely interventional services to the people of the state and beyond. It is actively pursuing ways of enhancing cardiac care delivery through training and capacity building.

### Diagnostic services

- Adult and pediatric echocardiography
- Transesophageal echocardiography with 3D imaging
- Treadmill cardiac stress testing
- Holter monitoring

### CATH Lab 2022-2023

Coronary Angiogram	- 170
PTCA	- 71
Temporary Pacemaker	- 26
Permanent Pacemaker	- 25
Pericardiocentesis	- 17

## Paediatrics Department

### SPARROW TRANSPORT SERVICE

The Sparrow Transport Service (Safe Pediatric Acute Response and Retrieval on Wheels) is a Level 3 children's Critical Care transport service. Initiated by the Pediatric Critical Care Unit of CIHSR head by Dr. Wonashi Tsanglao, to carry out transfer of critically ill children from PHC's, CHC, and any other health facilities in and around Dimapur to our Pediatric /Neonatal ICU.

Scope: The SPARROW Service will transfer infants and children below 16 years of age including neonates. The transport team includes a doctor trained to handle critically ill children, a nurse with PICU/NICU experience and a dedicated ambulance driver. The Service was launched in 2023.

So far we have safely transported 5 Paediatric patients using the Sparrow Transport service.

### New Services for PICU/NICU

As part of the expansion of services offered by the Paediatric department, two new services were added to the existing services offered by the PICU/NICU.

- **Therapeutic Cooling:** This is a specialized service for treatment of Term Newborn infants who suffer from significant perinatal asphyxia. By cooling the core temperature of the baby the metabolic demands of the newborn Brain is decreased and thereby reducing the damage from hypoxic damage.

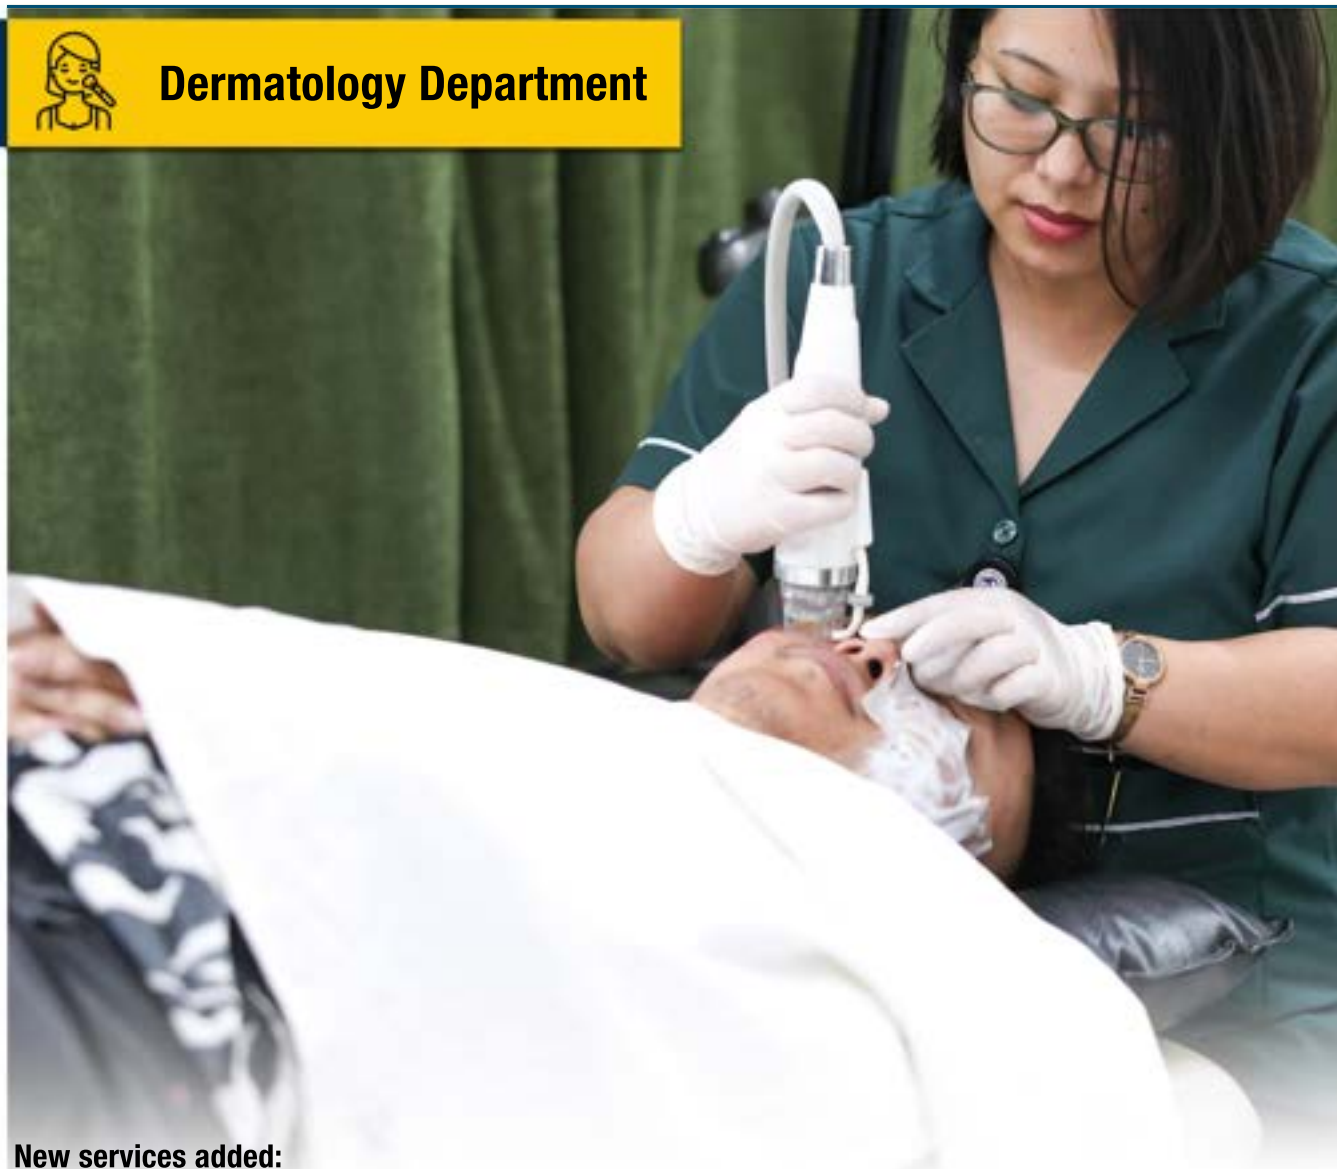

**Scope:** Newborns term infants with Perinatal asphyxia who reach our hospital within 6 hours of delivery.

- **Incubator:** This is a special New born closed circuit warmer for the care of very low birth weight and extreme preterm babies.

- **Bio-safety Cabinet:** A special secure and sterile place for preparing iv fluids and especially designed for preparing Total Parenteral Nutrition. The Laminar flow within the cabinet is designed to reduce the chance of contamination and thereby reduce infection.

## Dermatology Department

### New services added:

- Threadlift for improvement of neck wrinkles
- Volite injection for facial rejuvenation
- MNRF (micro-needling Radiofrequency) for scar repair
- Mandelic peel for post-acne scars/Melasma with Acne

### Workshops/Seminars/Conferences/Health Awareness talks:

Dr. Sentila: Advanced training in Fillers & Threadlift June & July

Dr. Leishiwon Kumrah as Panelist and Dr. Aveni as Speaker: Paediatric Dermatology CME on Atopic Dermatitis, Nagaland Chapter & IAP, Nagaland Branch 29th October 2022

Dr. Sentila and Dr. Aveni attended the Annual NECUTICON held in Kaziranga.

Dr. Leishiwon: Speaker & Panelist SIG Leprosy on World Leprosy Day, IADVL Webinar

Dr. Leishiwon/Sentila: attended the Annual DERMACON 2023

World Leprosy Day was observed in the Dermatology OPD with the CON students who gave an awareness talk on Leprosy to the patients.

Total number of patients seen in the OPD: 12225

Total number of IP patients: 69

Number of procedures done: 3155

## Obstetrics & Gynaecology

### DEPARTMENT RELATED ACTIVITIES

- Organized Cervical cancer awareness week (January) along with CME
- Organized World Midwives day on 5th May.
- Organized ENFI fellowship by OBG ward Nurses on December 2022

### ACADEMIC RELATED ACTIVITIES

- Organised a department CME
- Organised CME on cancer cervix
- Ms. Ashim attended regional workshop and seminar on 9th & 10th March.
- Classes for DNB OBG and Family medicine.

#### PLANS:

- To apply full DNB 3-year course
- Construction of Gynaecology ward (16 beds)

In - Patients-1386

Out- Patients -10762

Deliveries- 924

LSCS- 369

Major Operations- 570

Minor Operations- 226

## Ear, Nose & Throat Dept.

2022-2023 was a year of getting back to growth track. It was a privilege to serve increasing number of people both in OP and IP and respond to their needs.

### Training & Workshops

Prof (Dr.) Regi Thomas Dept of ENT , Skull Base Surgery, CMC,Vellore mentored and gave hands on training on Endoscopic Sinus Surgery to our team. We also organized CME on Endoscopic Sinus Surgery for all ENT surgeons of the Nagaland.

ENT dept also participated in the Allied Health Education Fair and our stall won the Best Stall Award.

We also celebrated the World Hearing Day with the theme “Ear and Hearing for all! Let’s make it a reality.” We also dedicated the first Beraphone in the state for Screening of Newborn for hearing.

In an effort to improve patient care and communication, several staffs from the department attended various workshops and seminar in Mumbai and in Shillong.

## Developmental Paediatrics

The department of Developmental Pediatrics since 2014 has grown to be an established name in the area of Intellectual and Developmental and Disabilities (IDD) providing help to families of children with disabilities in Nagaland and even across the state.

The OPD consultations consists of

- Complete Developmental assessment
- Psychometric tests like IQ test
- Screening and diagnosis of developmental conditions
- Parental counselling and support services.

The Precious Gems School provides 3 months of intervention program and takes in 16 children in two batches: The team conducts workshops and seminars in an around Nagaland to Churches, School Teachers, NGO's and Community.

It provides curative and promotive mental health services, in the community.

Services provided:

1. Assessment and Diagnosis of Developmental and Intellectual Disabilities
2. Special school training for children with disabilities from Precious Gems school
3. Family support and Counselling services
4. Workshops and seminars for school teachers and parents

Total no of cases from April 2022 to March 2023

Developmental Disabilities - 649

Psychological Counselling - 797

Precious Gems School - 150

# Embracing Autism: A Journey of Hope

Neivi, a 4 year old girl was brought to the Developmental Pediatrics OPD by her parents with the complaints of “poor speech and language, always in her own world and temper tantrums”. She came from a family history of Intellectual disability in Maternal and Paternal Uncles.

Following is the write-up of Neivi’s mother about her experience in Precious Gems School.

My daughter Neivi (Keneivinu) is 11 years old and studies in Class 5. She is bubbly, talkative and likes to draw. Neivi was diagnosed to have autism at 3 years of age.

Autism is not a disease. It is not a mental health issue or any illness that can be fixed with medicines. It is something that a person is born with and that individual is wired differently and perceives the world differently. Acceptance is the first step towards transformation and improvement. Sometimes the most effective adjustments occur by accepting what already is.

Under the guidance of Dr. Y Simpson and his team, Neivi and I started our special classes at Precious Gems School and from the get-go, the team at Precious Gems were very helpful and supportive.

Today, Neivi likes to participate in poetry recitation, science exhibitions and makes it to the toppers list in Class.

Representative Image

## Physical Medicine & Rehabilitation

### **New services:**

Platelet rich plasma therapy for the management of osteoarthritis, rheumatoid arthritis, peri-arthritis shoulder and soft tissue injury.

- USG guided nerve block for management of knee and shoulder pain.
- Resuming of Occupational therapy services since Jan 9,2023.
- Physiotherapy courses approved by the Nagaland board for school education.
- New services for chronic musculoskeletal pain i.e IASTM, cupping, therapy and needling.
- New services for developmental disability (Global developmental delay, cerebral palsy, ADHD, ASD)
  - Early intervention
  - Neurodevelopmental techniques
  - Sensory integration therapy.

Sensory Intergration Therapy- Occupational therapy

IASTM Therapy-Instrument assisted soft Tissue Mobilization (Physiotherapy)

USG guided Genicular nerve knee block (PMR)

## Opthalmology Department

1. Daily OPD service on week days
2. Preliminary eye examination like visual acuity testing, Refraction, fundus examination, Intra ocular pressure measurement and Gonioscopy.
3. Perimetry, A Scan and Keratometry test, Dry eye screening, Diabetic retinopathy screening and Glaucoma screening
2. Surgical services
  - a) Minor procedures like Chalazion, Lid repair, Corneal and conjunctival FB removal and Bandage contact lens fitting etc is done.
  - b) Major surgery like Phacoemulsification cataract surgery, Pterygium excision with conjunctival autograft, Naevus and Lid mass excision, DCT, DCR, Entropion and Ectropion etc are done.

### STATISTICS:

MINOR plus EYE PROCEDURES	536

## Community Health Department

The Community Health Department (CHD) conducts outreach programs in Dhansiripar block of Dimapur district and Medziphema block in Chumukedima district in partnership with the Department of Health and Family Welfare, Government of Nagaland through Terms of Reference (ToR) since 2010.

### **DHANSIRIPAR BLOCK, DIMAPUR DISTRICT**

Community Based Mental Health Program  
Mental Health for All (MeHeFA)

The program commenced from 1 August 2021 in Dhansiripar block in 17 villages. As of March 2023, 72 persons with various mental disorders were identified, assessed and followed up at regular intervals through field visits, provision of counseling, psychotherapy, medication where required to the beneficiary and support to the caregivers as well. As part of the program, 36 Mental Health Awareness seminars were also conducted regularly among 526 women from Self Help Groups (SHG) belonging to the Nagaland State Rural Livelihood Mission (NSRLM).

### **MEDZIPHEMA BLOCK, CHUMUKEDIMA DISTRICT**

Health Awareness Program on Non Communicable Disease (NCD)

The Health Awareness Program on NCD in partnership with the Nagaland State Rural Livelihood Mission (NSRLM) was planned for implementation in 2023 following the signing of Memorandum of Understanding.

### **NIULAND DISTRICT**

Community Based Health Program

Due to the COVID-19 pandemic during 2020-2021, the partnership program with the Western Sumi Akukukhou Kuqhakulu (WSBAK) was cancelled due to various reasons. For this matter, recommendation was sought from the Nagaland Baptist Church Council for alternative areas.

## Outreach Services Department

### ACTIVITIES

- A Health Awareness and Health promotion program was organized in Indo-Myanmar Border at Wanglee Market, Kamjong District, Manipur India in collaboration with missionaries of Poumai Naga Baptist Association and Amazing Grace Mission School, Wanglee Market . We got the opportunity to conduct health promotion activities with people living in village, truck drivers and students in schools and hostels.
- CLHTC 2nd Contact program for 15 days was conducted in Kolkata for 22 Missionaries of Charity sisters and we could facilitate the training program in collaboration with CMC Vellore distance education department.
- We organized a one-day training program on the theme “Best Out of Waste” in collaboration with ANMA Integrated Development Association (AIDA) in AIDA Training Hall, Don Bosco Campus , Dimapur, Nagaland.
- Income Generating Skill Training for 3 days with around 20 different types of skills. 23 participants from various NGO's, FBO's from Nagaland, Assam, Siliguri, Sikkim could attend the sessions
- CLHTC convocation cum Trainer refresher's program was organized in CMC Vellore and CLHTC trainers attended the program.
- Health promotion program focus on Men's fellowship with more than 140 members in Old Showuba Baptist Church.
- Community Health Promoters Certificate Course with Kuki Baptist Convention youths. 24 participants completed the 1st contact program.
- 17 trainees completed the Basic Cutting Tailoring Course in 3 months duration. 4 Trainees completed Ladies Design Course in 6 months duration.

The Palliative Care department works in line with the vision of CIHSR providing accessible, affordable, inclusive, compassionate and a good quality of service. Our goal is to ensure patients and their families to receive the best possible palliative care and we ensure our work reaches health professionals, patients, care givers and the community through our outpatient department, inpatient department and home based care services.

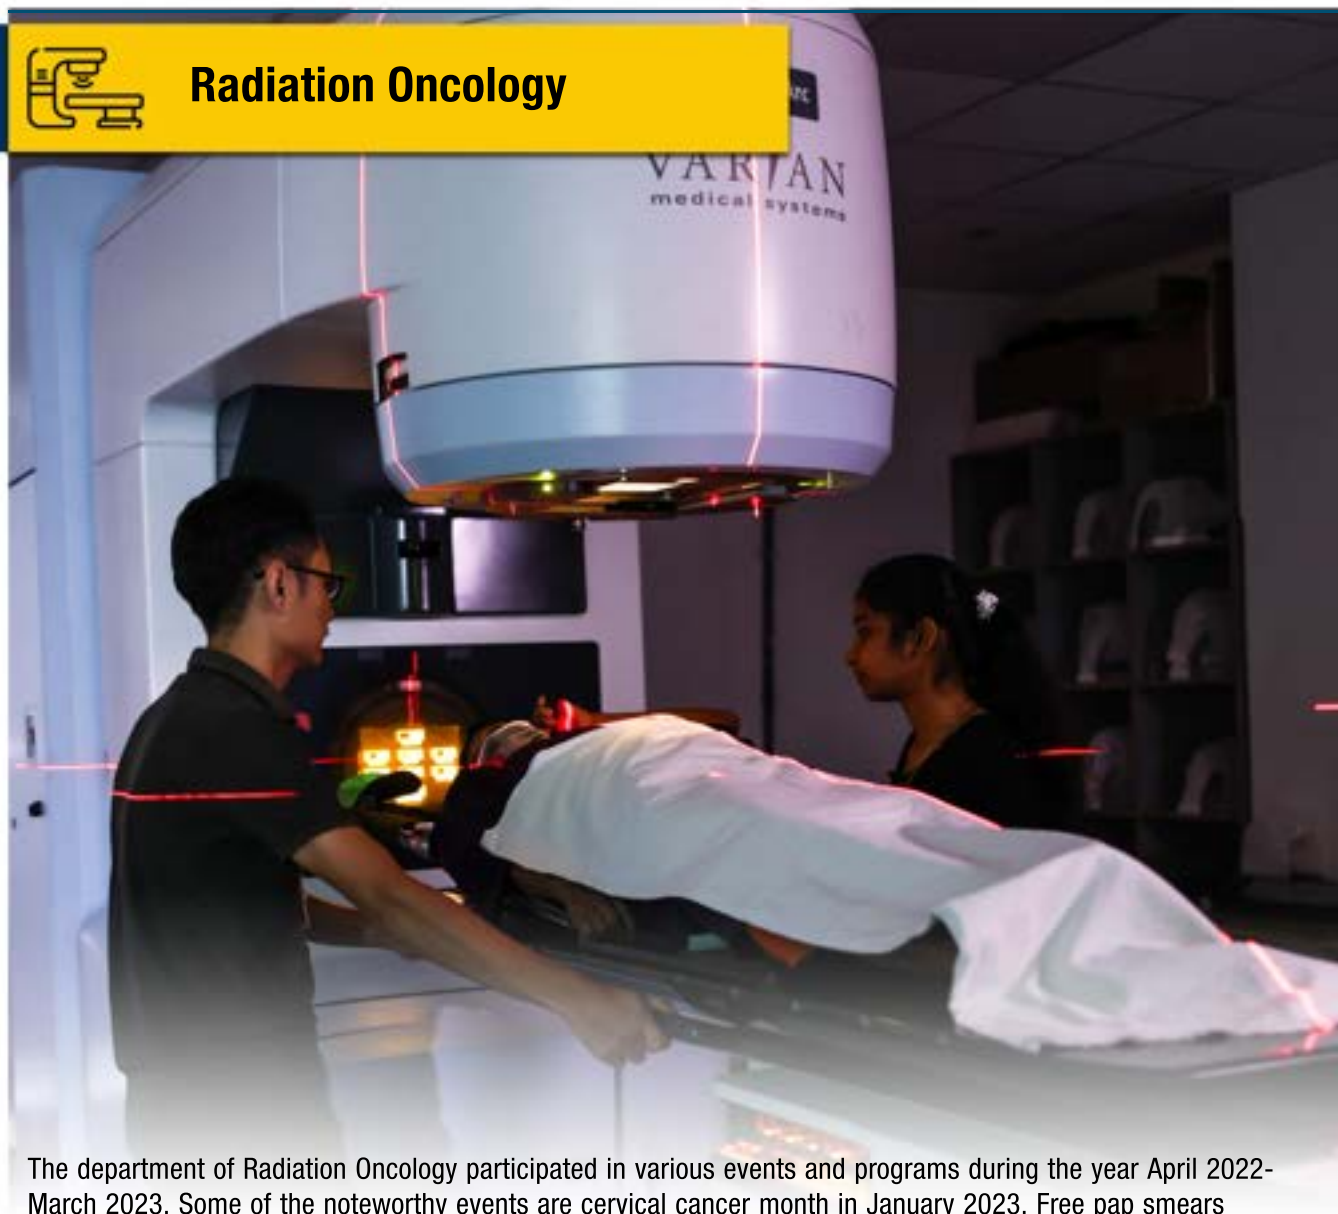

In the past year we have joined hands with the St. Joseph Palliative Care centre and supported them by our weekly visits to the centre and providing consultations and treatment for their admitted patients. We developed our training programme through Education department collaborating with the Indian Institute of Entrepreneurship, Guwahati to train “Care-givers” for elderly people and patients with palliative care needs.

During this year we could develop our training programme through Education department collaborating with the Indian Institute of Entrepreneurship, Guwahati to train “Care-givers” for elderly people and patients with palliative care needs.

## Radiation Oncology

The department of Radiation Oncology participated in various events and programs during the year April 2022-March 2023. Some of the noteworthy events are cervical cancer month in January 2023. Free pap smears were offered to the public, education sessions were held for patients and their families as they waited in OPD, and the month culminated in an academic session with a CME where surgeons, oncologists and pathologists of various institutions participated.

In April 2023, head and neck cancer month was observed which involved multiple departments coming together to screen the general population for cancer, an awareness program with the jawans and IRB, Dimapur which included memorable speeches by the Director of CIHSR, Dr. Sedevi Angami and by the Additional Director and State Nodal Officer, Tobacco Control, Dr. C. Tetseo and finally a CME/ symposium on head and neck cancer was held with many prominent national speakers with interesting case discussions.

In September 2022, a CME on carcinoma nasopharynx was held where various doctors, including Dr. Rajesh Isaih, Senior Consultant, Radiation Oncologist was a speaker.

The department also took part in two major multi-institution projects during this time period. One was a quality improvement project that was organized by the National Cancer Grid, in collaboration with EQUIP India and Stanford University of Medicine.

Dr. Paul Ravindran, Principal of AHS and Senior Radiation Officer was invited as a speaker for notable national conferences and events like AMPICON, AROICON, some at CMC Vellore, as well as a faculty for teaching courses including the FRCR course at Tata Memorial Centre Kolkata, and as an advisor to IAEA in Thailand and various other occasions. The department was awarded the best performing department by the Ayushman Bharat PMJAY health scheme in the Dimapur district on 2.7.2023.

## Radiology

Major plans and procurement in the process:

- 500 mA HF X-Ray installed and functioning in Emergency Complex.
- New CT machine procured and installed in the Acute care unit.
- Ms. Idauraile, successfully completed Master and have resumed the office as Supervisor
- MRI machine purchase and installation in the process.

### List of procedures 2022-2023

Routine X- rays	-20350
Hystero Salpingiogram (HSG)	- 74
Fistulogram/loopogram	- 12
Barium series	- 14
RGU/MCU	24
Intra Venous Pyelogram (IVP)	- 128
CT SCAN	- 5601

## Laboratory Sciences

Department of Laboratory Sciences CIHSR is a Multidisciplinary department consisting of

- Biochemistry & Immunoassay
- ii. Clinical Pathology .
- Microbiology (Bacteriology, Mycology & RNTCP) iv.
- Haematology v.
- Immunohaematology (Blood Centre) vi.
- Serology vii.
- Histopathology & Cytology. Viii.
- Molecular Diagnostics
- Department of Laboratory Sciences CIHSR is NABL accredited - Pre-Entry M(EL)T.
- A Biosafety Level 2 Molecular diagnostic facility available in the Dept.premises. The BSL2 lab is currently designated as one of the Nagaland State COVID-19 testing centre.
- The Blood Centre is the first Licensed Blood Centre/Blood Bank for Whole Blood & Components in a Private Hospital in Nagaland.

### Academics & Training

- In addition to clinical diagnostic services, the dept. is actively engaged in academics and training. Course offered in Bsc MLT (Medical Laboratory Technology) under Nagaland University.

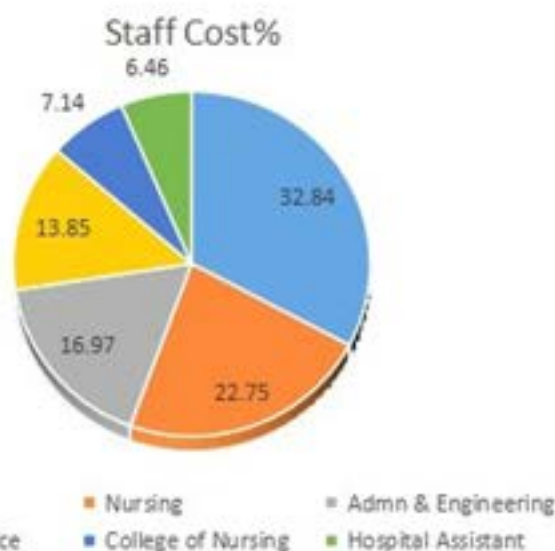

## Human Resources

Total number of employees (true as of 31st March 2023)

Total strength 545

1. Employee attrition rate-19%
2. Nurses attrition rate-29.85%
3. Sponsorship/ Study leave to 12 employees
4. Service commitment at CIHSR post sponsorship of further studies- 4
5. Expenditure of medical benefits to Employee
6. School/College visit to CIHSR for orientation on Allied Health courses offered in CMC Vellore & possibility of EHA sponsorship. Approximately 800 plus students attended the same.

## Quality Cell

### CIHSR Certification:

- CIHSR renewed its NABH Pre-Accreditation Entry Level certification valid from 11th January 2022 to 10th January 2024.

### CIHSR Membership:

- Registered as Life time members with The Association of Healthcare Providers, India (AHPI) – Membership no: AHPI-NL-011.
- Registered as a Regular Diagnostic Institution Member with Consortium of Accredited Healthcare Organizations (CAHO) – Membership no: CAHO/DM/2021/0016, valid till 1st July, 2024.
- Registered as Regular Healthcare Institution Member with Consortium of Accredited Healthcare Organizations (CAHO) – Membership no: CAHO/RM/2020/0182, valid till 28th January, 2025.

## Billing

The department is segregated into the OPD billing, Ward billing and the Health Schemes Office. Health Schemes office deals with all the empaneled organization with the hospital-AB-PMJAY/CMHIS, NIT, Airport and various organizations etc.

### **Billing Initiative:**

Billing department initiated a fund raiser, "Aid for the Poor," at the OPD billing area. Anyone can have a cup of tea/juice and contribute willingly. With that contribution collected many needy/poor patients have been given aid in terms of cash and food coupons.

Statistics Report of AB-PMJAY/CMHIS

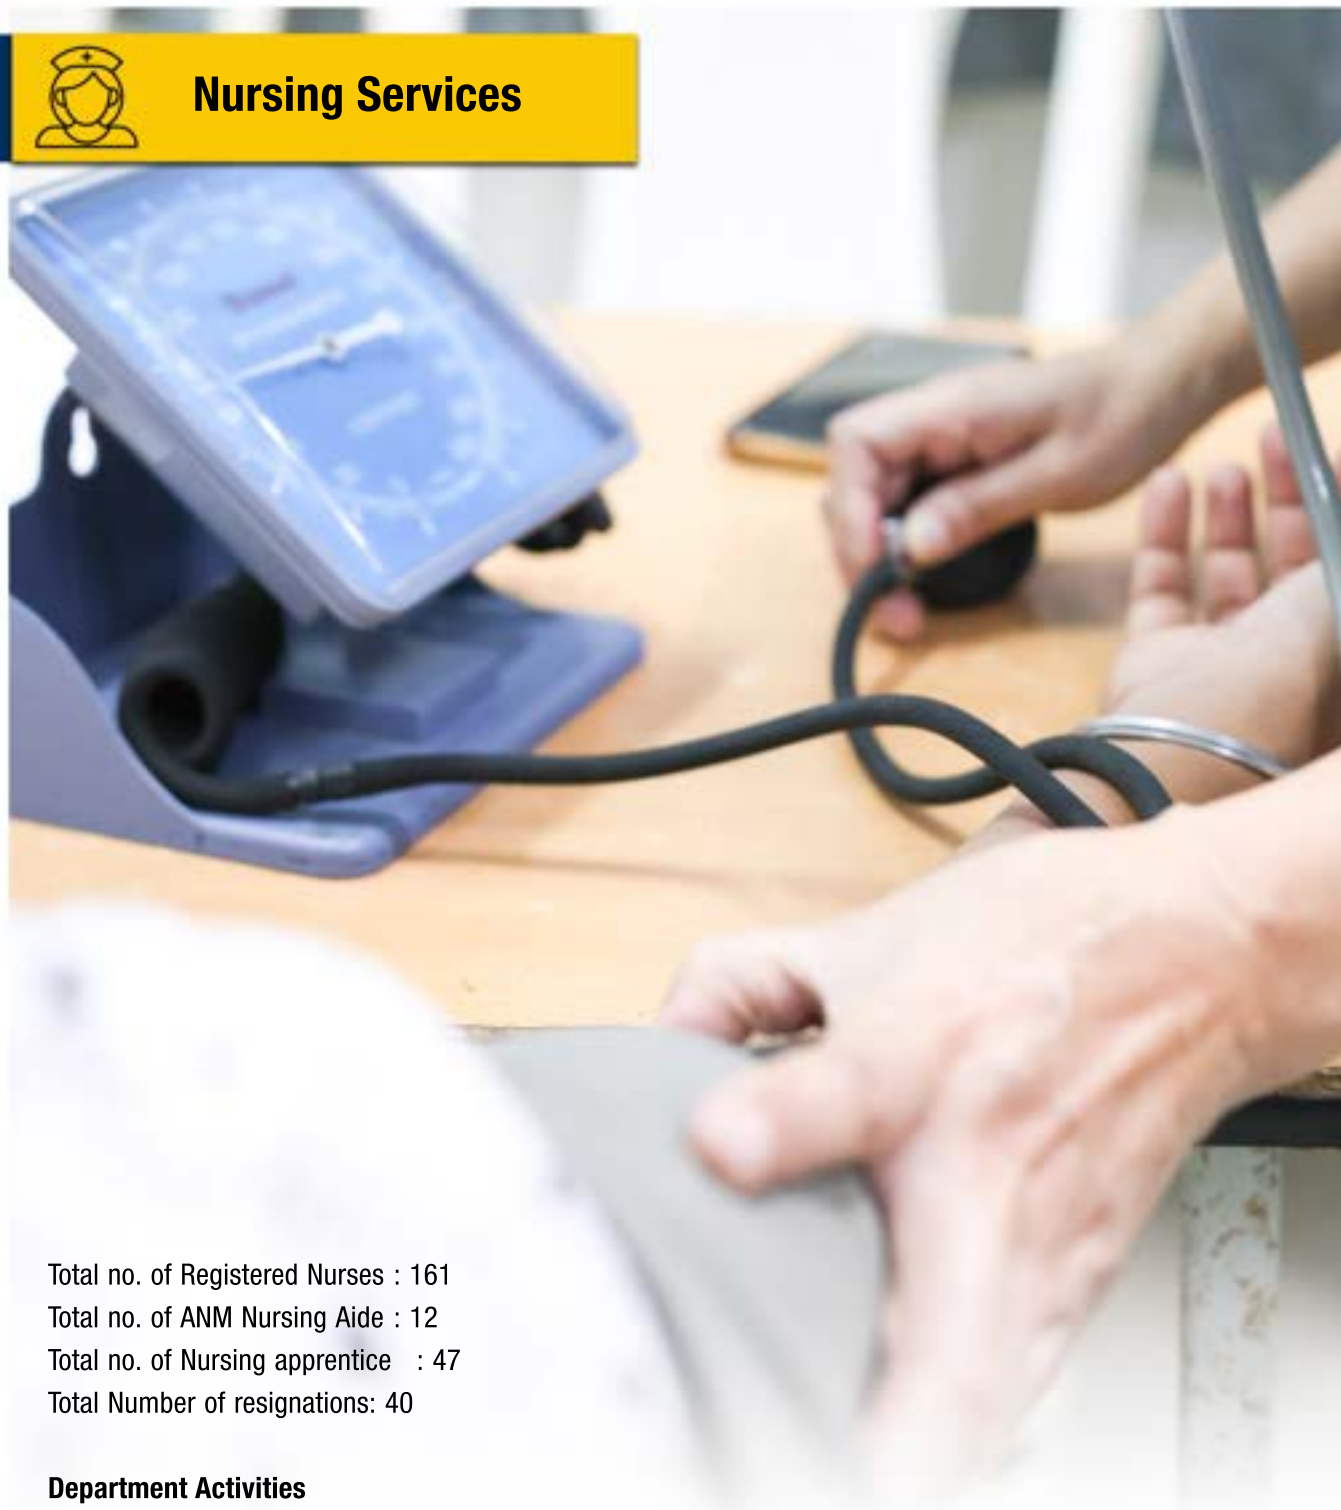

**Nagaland- 7954**

**Interstate- 487**

## Nursing Services

Total no. of Registered Nurses : 161  
 Total no. of ANM Nursing Aide : 12  
 Total no. of Nursing apprentice : 47  
 Total Number of resignations: 40

### Department Activities

- Staff Development Programs
  - o Two State Level Seminar with Nagaland Nursing Council Credit hours
  - o Four District Level Continuing Nursing Education Program with Nagaland Nursing Council Credit hours
  - o Eight staff participated in the 77th TNAI National conference in Guwahati.
  - o Goal setting of each staff (Nurses and hospital Assistants)
  - o Decentralized responsibilities
- Key Point Indicators: Monthly KPI record is maintained and deliberated.
- Incident Report and Review: Incidents are reported, recorded and reviewed.
- Monthly Social work in all wards.

## NagaEd: Digital learning platform for healthcare educators

The NagaEd organized a two-day Teacher Training Course “Digital Learning for Teachers: Navigating NagaEd LMS” through facilitated live workshops for training and assessment assistance for CIHSR educator trainees on the 26th and 27th of October 2022 at CIHSR.

This was designed to build educators’ skills in digital content development with the purpose of ensuring the users are well-equipped with the features and functionalities of the NagaEd Learning Management system (LMS). A total of twenty educator trainees were enrolled to be trained on the features and functionalities of the NagaEd LMS.

An agreement with NagaEd was signed on 22 October 2022 for the Implementation of the NagaEd LMS as an effort to build and enhance digital learning at CIHSR. Teacher graduation was organised on 24th November 2022 and the educator trainees were awarded a training completion certificate.

At present, five courses: College of Nursing (2 courses: B.Sc. Nursing and GNM course), Allied Health Sciences (B.MLT), DNB, and Post Diploma in Clinical Educator courses are enrolled on the platform.

Clinical Educators Course

The College of Nursing, CIHSR is the first nursing college in the state of Nagaland which was accredited by National Assessment and Accreditation Council (NAAC) in Feb, 2022.

#### **Staffing: College**

M.Sc N : 14  
B.Sc N Tutor : 13

#### **No of Students:**

GNM : 89  
B.Sc N : 170  
PBBScN: 18

#### **Academic Activities**

Vidyalaya Online platform is installed for online student management in the month of March 2023. On Line Learning Management system by Naga Ed is initiated. Four faculty are deputed to learn the platform NAAC: Annual Quality Assurance Report (AQAR) Submitted on 28th Feb 2022

#### **Inspection**

Indian Nursing Council : For enhancement of seats of GNM from 30 -50 and B.sc N 40 -50 , on - 1st & 2nd Aug , 2022 .B. Sc enhancement was approved, 50 students were admitted from 2022 -2023 academic year . Nagaland University Renewal and validity: Validity was renewed without inspection for the academic year 2022 -2023 since the college was accredited by National Assessment and Accreditation Council (NAAC).

#### **FACULTY DEVELOPMENT**

Continuing Nursing Education

Higher Studies

- ☑ Three Faculty are Sponsored for Ph.D. program under Martin Luther University, Shillong
- ☑ Two B.Sc N Tutors joined for M.Sc N in Medical - Surgical Nursing
- ☑ Two for Post Diploma Courses in Bio Ethics & Leadership

#### **Publications: 4**

Research: On going: 3

## North East Region Multi-Disciplinary Paramedical Institute (NERMPI)

The NERMPI embarked on another academic year, marked by significant milestones, and academic achievements.

### Admission Season:

The academic year commenced with the admission process for the 2022-2023 batch from 19th to 22nd July 2022. A total of 17 students enrolled (MLT:10, AOTT:5, HIM:2)

### New Beginnings:

On 2nd October 2022, a new batch of eager minds joined the college, marking the beginning of their academic journey. The following days, 3rd and 4th October 2022, were dedicated to orienting these newcomers, ensuring a smooth transition into college life.

### Infrastructure Development:

A momentous occasion unfolded on 6th October 2022 with the inauguration of the JBC Building. This facility is poised to enhance the learning environment and cater to the needs of our students and faculty.

### Faculty Development:

Recognizing the importance of continuous learning, the NagaEd training for NERMPI faculty was conducted on 26th and 27th October 2022. This initiative aimed at equipping our educators with tools and techniques for the Learning Management System.

### Showcasing Excellence:

The NERMPI organized its first Educational Exhibition on 12th November 2022. This event served as a platform for the various Health Science departments and students to showcase their projects, innovations, and educational endeavours.

### Community Engagement:

From 3rd to 5th February 2023, NERMPI students actively participated in a Work Camp, contributing to community development initiatives. This hands-on experience aimed at instilling a sense of social responsibility among our students.

### Professional Development:

The Community Orientation Programme (COP) for NERMPI students, held from 6th to 11th February 2023. This immersive experience aimed at bridging the gap between theoretical knowledge and practical application by engaging students in community development initiatives. The COP served as a platform for students to apply their academic learning in real-world scenarios, fostering a holistic approach to healthcare education.

## DNB Courses

CIHSR was accredited for three (3) DNB Post MBBS Broad Specialty courses initiated by the National Board of Examinations & Medical Sciences (NBEMS), New Delhi in Family Medicine since 2013, General Medicine and General Surgery since 2016. DNB Post MBBS & DNB Post Diploma seats in Paediatrics were accredited in 2021 and two DNB Diplomas in Anaesthesia and Obstetrics & Gynaecology in 2022.

### Details of courses:

NBEMS Accredited Specialty	No. of Seats	Course Type
Paediatrics	1	DNB Post Diploma
Family Medicine	2	DNB Post MBBS
General Surgery	2	DNB Post MBBS
General Medicine	2	DNB Post MBBS
Paediatrics	1	DNB Post MBBS
Anaesthesiology	2	DNB Post MBBS Diploma

## RESEARCH IN CIHSR

The Institutional Review Board (IRB) comprising of Ethics and Scientific committee reviews all studies conducted in CIHSR. Our studies encompass the field of epidemiology, public health, oncology, emerging diseases (infectious and non-infectious) and mental health. The Ethics Committee was provisionally registered to the Department of Health Research (DHR), Ministry of Health and Family Welfare in December 2020. The IRB facilitates research ethics trainings and workshops for its members and staffs. The full board review meeting is conducted four times in a year (February, May, August and November), while the Scientific Committee sits monthly for expedited review. For the period 2022-2023, there was a total of 12 research articles published, in the area of tuberculosis, mental health, antimicrobial resistance, oncology and AI.

During this period, the IRB has reviewed a total of 27 studies. Among these, there are 4 (four) collaborative studies, two funded by Indian council of Medical research (ICMR) and two international cohort study. A total of 23 studies are intramural, of which 13 studies are dissertations being carried out in the Department of Medicine, Surgery, Paediatrics and Family medicine for DNB degree. Two studies have been completed and one was published in 2023.

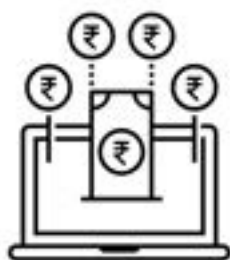

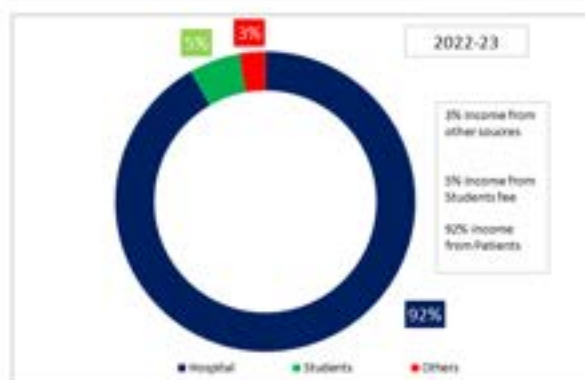

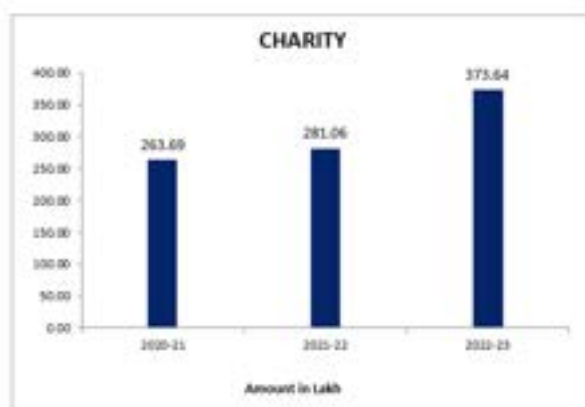

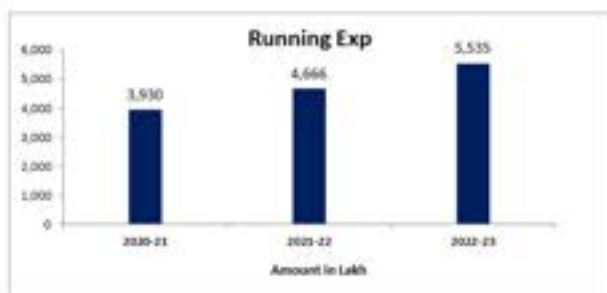

## LEADERSHIP DEVELOPMENT

CIHSR takes strong cognizant of Leadership development for staff to help them enhance their ability and effectively perform their role in the organization.

Currently, there are 7 staff members enrolled in **Post Graduate Diploma course in Hospital Administration** offered by Tata Institute of Social Sciences (TISS) and **Diploma in Hospital Administration** from CMC Vellore, Distance Education department.
